## Who We Are ?

Al Shumookh Group of Companies was established In 2012, Having 10 years plus experience in this industry, While Dubai is becoming the biggest gold hub market accounting for 25-30% of the total world gold market the opportunity for more Dore bars will be transacted through Dubai. with all the necessary infrastructure for the gold market that include substantial gold refineries, and financial institutions our market is having a considerable increase in the past few years, and the long-term gold supply, we have accumulated from different counties mainly, Africa and Latin America is the basic success we are earning now and in the future.

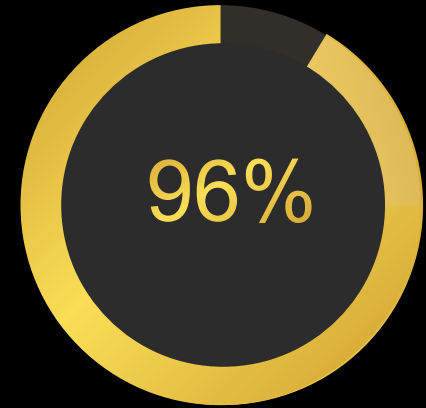

## What we do ?

Much of the procedure and time invested before we sign a long-term contract will be, due diligence on our suppliers, a site visit ( whenever it is necessary ) a proper strategy plan with our supplier including logistics, insurance, and legal terms as per the country of origin and UAE trade laws in parallel to timeframe delivery throughout the year. Once the delivery is done to Dubai, our main refinery GGR Sharjah or precious metals and similar well-recognized smelting and assaying is performed as per the agreements.

## Our Strength

Our monthly capacity could accommodate roughly from **1500 kg to 3000 kg** Dore gold of 92% - 96% purity, if the quantity offered is more than mentioned we can have our consortium of other cooperated companies accommodate up to 5000 kg. Our main suppliers at this stage are Ghana, Tanzania, Mali, Cameroon, Sierra Leone, and Genia Conakry.

## Our Vision

To team up with selective green mining groups , cooperate to develop skills , to focus on production sustainability , and deliver our commitments to words the growing Dubai Gold market , and have greater share of supply .

## Our Mission

Mission Sharing and developing mining people and welfare , cooperate mining areas to international mining standards , environmental protection values , preservation on water and power resources .

## Our Goals

Steady & timely manner flow of supply , increase quantity as per the market demand and commitment with end buyer for long term supply .
